Harry W. Otto, Ph.D.  
Manager Technology Service Section  
150 E. Water Street  
Dover, Del. 19901

Dear Harry:

The attached memo relates to the question which you posed, namely the sources of potential funding regarding the Azarowicz proposal in treating Llangollen landfill leachate.

It is abundantly clear that we cannot support this type of research with PL-93-523 funds. However, this effort should still be pursued under PL-92-500 funding.

If we can be of further assistance, please let us know.

Sincerely,

Albert Montague, P.E.  
Director  
Research and Development

A. MONTAGUE:AB:11/20/75
